PETITION

To the Honourable the Speaker and Members of the Legislative Assembly of New South Wales.

The Petition of residents of the Marrickville and Canterbury electorates and surrounding areas brings to the attention of the House:

1) the strong community support for the current GreenWay project of a shared walk/cycle way and bushcare sites as part of the Inner West Light Rail Extension, and
2) the significant benefits that the GreenWay and Light Rail Extension will provide for transport, open community space, and as a wildlife corridor for a healthier environment.

The undersigned petitioners therefore ask the Legislative Assembly to call on the Government to continue to construct the GreenWay project as part of the Inner West Light Rail Extension as planned and approved, with no reduction in funding, so that the communities of the Inner West can reap the benefits of this important initiative.
